**Binario Redgold**

June 2016

The historic collection of “Binario” wire dish supports now comes in the new **Redgold** finish. In line with the coolest colour trends of the moment, the collection glows with the warmth of red gold.

A combination that brings a warm glow to the table and to porcelain serving dishes, an absolutely innovative touch for this evergreen Zanetto collection.

The Binario RedGold collection comprises:

Double vegetable dish	diam. 36 cm
Spaghetti dish	diam. 30 cm
Oval risotto dish	cm 36x26
Serving plate	cm 65x20
Double sauce dish	cm 22x15
Salad bowl	diam. cm 25
Tray	diam. cm 36

This highly elegant, impacting colour is now added to the Binario collection. It offers new ideas when selling to customers who love quality and classic design, looking for that hint of distinction that only attention to the evolution of contemporary taste can guarantee. A philosophy that Zanetto has always embraced.

Summer  
means lunches and dinners outdoors,  
the perfect opportunity  
for the Binaro Redgold collection  
to express its undisputed beauty  
as it plays with the fiery reflections of sunsets over the sea,  
in the hills or mountains.  
The table will come alive with light and colour  
for an enjoyable moment  
shared with friends and family.
